The screenshot shows the 'State of the DApps' website, which is a curated list of 1,664 decentralized applications. The page features a navigation bar with links for Home, Rankings, Collections, and Statistics, along with a search icon and a 'Submit a DApp' button. The main content is organized into sections: 'CURATED COLLECTIONS' with a subtitle 'Explore our handpicked groupings of the best DApps on the market.' Below this, there are two main sections: 'Featured' and 'Hottest', each with a 'View all >' link. The 'Featured' section displays six DApps: CryptoTask (scalable freelancing market), FreedomDEX (ERC-20 exchange), CryptoPioneers (economic strategy game), Ether Dungeon: Age of Myth (RPG), OpenSea (peer-to-peer marketplace), and RigWars Idle Game (idle game). The 'Hottest' section displays six DApps: CryptoHashMemes (meme creation), DIVIUM x2 with SlowDump (dividend platform), Ether Lucky (lottery), FundRequest (funding platform), World-youCollect (collectible marketplace), and LatiumX (crowdsourcing). Each DApp card includes its name, a brief description, a 'LIVE' or 'WIP' status, and a checkmark icon.

Comisión Nacional de Energía se convertirá en la primera entidad pública en utilizar Blockchain en Chile

La CNE utilizará la disruptiva tecnología para certificar la calidad y certeza de los datos abiertos del sector energético nacional, los que quedarán registrados para siempre en la denominada "cadena de bloques".

El impacto que esperamos en el corto plazo

Conclusiones

- No esperemos el impacto, trabajemos en desarrollar políticas que permitan la adopción de tecnologías disruptivas.
- No todo necesita de Blockchain, hay procesos que son más eficientes de manera centralizada.
- Pero si hay muchos donde podemos disminuir las fricciones, distribución del registro y de la confianza.
